

► Pay It Forward

Help Develop the Next Generation of Healthcare Professionals

Community faculty are invaluable to UK. These dedicated individuals provide students with hands-on experiences and insight into the lives of clinicians working in Kentucky communities.

In recognition of their efforts, UK HealthCare pledges its ongoing support. Community faculty are able to participate in the Annual Community Faculty Conference, Regional Workshops, and Faculty Development online.

Community faculty also receive benefits such as discounts in the University Bookstore and other participating merchants through the UK Employee Discount Program, access to the UK Medical Center Library and area Health Education Center libraries, and memberships to the Hilary J. Boone Center and Spindletop.

For more information, call **859-323-8013** or e-mail ukcfp@uky.edu.

► 2017 Projected Need for Healthcare Providers in Kentucky

By 2017, nearly all Kentucky counties are projected to have a healthcare provider need that is greater than the supply. Help train the next generation of healthcare providers in your area!
